

# INTRODUCING THE NEW! RUTGH SERIES SUPER HIGH EFFICIENCY CONDENSING TANKLESS

With the same proven performance both plumbers and homeowners trust, the Ruud® RUTGH Series Super High Efficiency Condensing Tankless Water Heaters now offer a new modern design. These smaller, lighter units were designed with contractors in mind to make one-person installation and servicing even easier. Plus, enhanced features deliver the continuous hot water and energy efficiency homeowners want.

**PROVEN  
PERFORMANCE**  
**NEW  
MODERN  
DESIGN**

## Outdoor Conversion Kit RTGH-X\*

enables RUTGH installation outdoors (sold separately)

\*When converting indoor Wi-Fi with LeakGuard models to outdoor, included cable and indoor mount should be used. This cable disables LeakGuard in outdoor installations to avoid false alarms and shut-off. Reference outdoor conversion instructions for more information on a cable installation.
