Professional Prestige® ProTerra Hybrid Electric with LeakGuard™ is the most efficient water heater available

Efficiency
• Up to 4.0 UEF reduces operating cost
• ENERGY STAR® rated

Performance
• Delivers hot water faster than most standard electric water heaters
• Ambient operating range: 37-145° F is widest in class, offering more days of HP operation annually; designed to meet Northern Climate Spec (Tier 4)

Easy Installation
• Easy access side connections
• Quick access to electrical junction box
• Easily replaces a standard electric water heater

Integration
• LED Screen with built-in water sensor alert with audible alarm¹
• Integrated EcoNet® WiFi-connected² technology and free mobile app gives users control over water heater, allowing for customizable temperature, vacation settings, energy savings and system monitoring at home or away. Visit Rheem.com/hybridsolutions

• Integrated leak detection and prevention system with factory installed auto water shut-off valve limits leaks to no more than 20 ounces of water.¹,³
• LeakSense™ Built-in Leak Detection System detects any leak large or small, internal or external¹,⁴

Operation Modes
• Energy Saver
• Heat Pump
• High Demand
• Electric
• Vacation/Away: 2-28 days (or placed on hold indefinitely)

Plus...
• Premium grade anode rod with resistor extends the life of the tank
• 3/4” NPT water inlet and outlet; 3/4” condensate drain connections
• Incoloy stainless steel resistor elements
• Dry-fire protection
• Easy access, top mounted washable air filter
• 2” Non-CFC foam insulation
• Enhanced flow brass drain valve
• Temperature and pressure relief valve installed
• Design certified to NSF/ANSI 372 (Lead Content)

Warranty
• 10-Year limited tank and parts warranty
See Residential Warranty Certificate for complete information

Units meet or exceed ANSI requirements and have been tested according to D.O.E. procedures. Units meet or exceed the energy efficiency requirements of NAECA, ASHRAE standard 90, ICC Code and all state energy efficiency performance criteria.

See specifications chart on next page.

¹Available with select models. ²WiFi broadband internet connection required. ³Source: Rheem Leak-Sensing Data; testing under a vacuum lock using 50-gallon tank, no expansion tank, average tank pressure of 40 psi, assuming no additional faucets are opened. ⁴Water leaks from the heater only, as tested across scenarios including a minimum of 5.5mL/hr volume leak rate, using most common installation scenarios.

Hybrid Water Heater Installation Guidelines to Provide Optimal Efficiency

**Heater: Not Ducted**
Room size: Larger than 700 ft³ (e.g. 7' x 10' x 10').
Requirements: No additional ventilation needed.

**Heater: Not Ducted**
Room size: Smaller than 700 ft³ (e.g. 7' x 10' x 10').
Requirements: Full louvered door OR two louvers top and bottom. See below.

**Heater: Not ducted**
Room: Small Closet
Requirements: * Air gap under door equal to 18 in² (0.75” clearance).
* Louver must be located the same height on door as the air exhaust on heater.
* Heater air exhaust must be positioned towards louver within one foot of door.

**Heater: Ducted with inlet OR outlet duct**
Room size: Any size room
Requirements: Air gap under door equal to 18 in² (0.75” clearance)

**Heater: Ducted with inlet AND outlet duct**
Room size: Any size room
Requirements: No additional ventilation needed.
