

**RTG Series Tankless** Water Heaters

The new degree of comfort."

# **Rheem® RTG Series High Efficiency Non-Condensing Tankless Gas Water Heaters**

#### Easy Installation

- Industry Leading! 43' vent run capability
- Enhanced design up to 10% smaller to fit in even more places than before
- Enhanced design up to 22% lighter making one-person installs even easier

#### **Ready for Retrofits**

- Industry Best! 1/2" side to side clearance allows you to safely work in spaces the competition can't
- 1/2" Gas line compatibility (subject to local code)
- Universal Venting Compatibility with UBBINK, Metal Fab, and Rainbow venting for easier tankless to tankless replacements

#### **Key Features**

- Rheem® Exclusive! Hot-start Programming<sup>™</sup> ensures the unit is in a ready state between back-to-back usage, minimizing any cold water bursts
- Built-in EcoNet<sup>®</sup> Wi-Fi technology for direct control from your device (on select models)
- LeakGuard<sup>®</sup> All-inclusive leak detection and prevention system that detects any leak that comes from the unit (on select indoor with Wi-Fi models)

Indoor DV

Outdoor

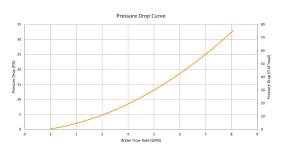

## **RTG Series Models**

Indoor & Outdoor Models 11,000-199,900 BTU/h Natural Gas and Liquid Propane Models\*

\*Swap P for N in model number for Liquid Propane model

Clearances				
Top / Bottom	12"			
Front	1/2"5			
Sides	1/2"			
Back / From Vent Pipe	0"			

<sup>1</sup>Based on simultaneous showers using 2.5 GPM flow rate pre-mixed with cold Caused on simulations showers using 2.5 Gervin now rate pre-finited with Cold water line. Flow rates vary depending on temperature of incoming cold water and water heater set temperature. Refer to flow rate curves for accurate sizing. <sup>2</sup> For indoor application, this is the temperature of outdoor intake air. <sup>3</sup>Manifolds with standard RJ11 communication cables. <sup>4</sup>If anti freeze is on and combustion is on, total W will be 217W (85+132). <sup>5</sup> Recommended 24\* clearance for service.
