## Professional Prestige ${ }^{\circledR}$ Maximus Gas Water Heater offers maximum efficiency \& continuous flow <br> er

## Efficiency

- Up to . 90 UEF reduces operating cost
- ENERGY STAR ${ }^{\circledR}$ rated

## Performance

- Up to 3.8 GPM continuous flow of hot water at setpoint temperature
- Highest Delivery of 192 gallons in MaxMode ${ }^{\text {TM }}$

## Easy Installation

- Built-in Condensate Neutralizer
- Certified for multiple termination configurations
- Easy front access to connections and components
- Zero clearance on sides and back
- Longest vent runs, installs as PV or PDV with same unit
- 8" Centers on top water connections for easy replacement of standard gas water heaters
- 1/2" NPT gas connection
- 3/4" NPT water inlet and outlet;
$3 / 4^{\prime \prime}$ condensate drain connections
- Plugged side taps
- Temperature and pressure relief valve installed

## Integration

- LCD Display with built-in water leak sensor and system health alert with audible alarm
- Integrated EcoNet ${ }^{\circledR}$ WiFi-connected ${ }^{1}$ technology and free mobile app gives users control over water systems, allowing for customizable temperature, vacation settings, energy savings and system monitoring at home or away. Visit Rheem.com/maximus
- LeakSense ${ }^{T M}$ Built-in Leak Detection System detects any leak large or small, internal or external ${ }^{2}$
- Optional auto water shut-off valve accessory limits leaks to no more than 20 ounces of water ${ }^{3}$

## Operation Modes

- MaxMode ${ }^{\text {TM }}$ for up to 15\% more hot water on demand
- Vacation/Away mode for energy savings during non-use time
High Altitude Compliant
- Certified to 10,100 ft. above sea level - High altitude LP models are required for 2000-7800 feet

Plus...

- Dual anode rods extend tank life
- Enhanced flow brass drain valve for faster draining
- Advanced Controls and Start-up Verification for better diagnostics, faster installation and easier servicing
Warranty
- 6-Year limited tank and parts warranty
See Residential Warranty Certificate for complete information

Units meet or exceed ANSI requirements and have been tested according to D.O.E. procedures. Units meet or exceed the energy efficiency requirements of NAECA, ASHRAE standard 90, ICC Code and all state energy efficiency performance criteria.

[^0]

## Professional Prestige Maximus

40 and 50-Gallon Capacities Up to 100,000 BTU/h Natural and LP Gas Ultra Low NOx

Uniform Energy Factor and rated gallon capacity based on Department of Energy (DOE) requirements.
All units have integrated WiFi control board.
$(H)$ denotes high altitude LP model required for 2000-7800 feet.

RESIDENTIAL EQUIVALENT VENT LENGTHS

Note: Vent pipe size should not be mixed for venting these water heater. Use same diameter pipe for all venting of the unit.
All power direct models can use $2^{\prime \prime}$ concentric venting only as listed in the above chart.
$2^{\prime \prime}$ Concentric vent can only be used with 2" rigid piping.
DO NOT mismatch concentric vent terminations with different rigid
piping as it may cause the heater to malfunction or cause a lock-out

| FL_EXIBLE POLYPROPYLENE PIPE (FT) |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
