

PRO TEAR PAD

ULTRA LOW NOx

NATURAL GAS

PROPANE GAS

Water heaters for California Air Quality Management Districts (AQMD) – All models listed below comply with all California Air Quality Management District (AQMD) requirements that govern nitrogen oxide (NOx) emissions from residential type natural gas fired water heaters.

ENERGY STAR® compliant

- Uniform Energy Factor based on Department of Energy (D.O.E.) requirements.
- Check dimensions on carton at time of purchase. Dimensions and specifications are subject to change without notice in accordance with our policy of continuous product improvement.
- Some models may not be available in all markets.
- Only Natural Gas models are ULN certified.
- All residential gas models have 3/4" NPT water connections, excluding 75 and 98 gallon tanks which have 1" water connections.
- See written warranty for complete details.

* Available hot water refers to the water heaters first hour delivery rating as required by the Department of Energy test procedures.

** Estimated energy cost based on a national average fuel cost of \$1.09/therm for natural gas and \$2.41/gallon for LP. Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

ENERGY STAR® compliant

- Uniform Energy Factor based on Department of Energy (D.O.E.) requirements.
- Check dimensions on carton at time of purchase. Dimensions and specifications are subject to change without notice in accordance with our policy of continuous product improvement.
- Some models may not be available in all markets.
- All residential electric models have 3/4" NPT water connections, excluding the 2.5 gallon Point-of-Use which has a 1/2"
- See written warranty for complete details.

* Available hot water refers to the water heaters first hour delivery rating as required by the Department of Energy test procedures.

** Estimated energy cost based on a national average electricity cost of 12.00 cents per kWh. Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

¹ Warranty is provided to original customer in a residential application after online product registration is complete. Registration must be completed within 90 days of installation. See Warranty Certificate for complete information.

² Based on comparison of a 50-gallon Rheem® ProTerra Hybrid Electric Water Heater and a standard electric water heater of like capacity manufactured prior to 2015 under NAECA II which is likely being replaced. Payback based on cost of product install compared to alternative product install, available rebates and estimated annual energy cost savings.
