Marathon® thermal storage tanks feature a lifetime limited tank warranty and a 6-year limited parts warranty*

**Built to Last!**
- Seamless, blow-molded, polybutene tank – impervious to rust and corrosion
- Titanium sheath elements for superior resistance to lime build-up
- Multiple layers of filament wound fiberglass give the tank unmatched strength
- Tough molded polyethylene outer shell resists dents and scratches

**Designed for Easy Installation**
- Lightweight
- Water port fittings located at front of storage tank for convenient access
- Full port, full flow brass drain valve for fast draining
- Factory installed temperature and pressure relief valve and vacuum relief valve

**Plus…**
- Thermally fused element provides protection against “dry-firing”
- Bowl shaped bottom allows for complete sediment removal
- Recessed drain valve is out of the way of brooms and scrubbers

**Warranty**
- Lifetime limited warranty on tank and 6 years on parts*
  *See Residential Warranty Certificate for complete information

Units meet or exceed ANSI requirements and have been tested according to D.O.E. procedures. Units meet or exceed the energy efficiency requirements of NAECA, ASHRAE standard 90.1, ICC Code and all state energy efficiency performance criteria.

†Canadian certified models have different model numbers than U.S. models. Add a “C” before the model number (e.g., CMTS85200) when ordering.

†Canadian certified models are not available on thermal storage tanks without backup elements (e.g., MTS85200, MTS85200, MTS105200)

• Storage tanks furnished with elements are standard 240 volt AC.

• Maximum test pressure: 300 PSI, maximum working pressure: 150 PSI, maximum water temperature: 180° F

In keeping with its policy of continuous progress and product improvement, Rheem reserves the right to make changes without notice.
