Marathon thermal storage tanks are designed for solar, geothermal and indirect heating with a warranty to back it up

Marathon® thermal storage tanks feature a lifetime limited tank warranty and a 6-year limited parts warranty*

**Designed for Alternative Energy Applications**
- Specifically designed for installation as a thermal storage tank
- Backup electrical element provides 40 gallons or more of heated water
- Large water connections for lower pressure drop

**Built to Last!**
- Seamless, blow-molded, polybutene tank – impervious to rust and corrosion
- Titanium sheath elements for superior resistance to lime build-up
- Multiple layers of filament wound fiberglass give the tank unmatched strength
- Tough molded polyethylene outer shell resists dents and scratches

**Designed for Easy Installation**
- Water port fittings located at front of storage tank for convenient access
- Full port, full flow brass drain valve for fast draining
- Factory installed temperature and pressure relief valve and vacuum relief valve

**Additional Features**
- Thermally fused element provides protection against “dry-firing”
- Bowl shaped bottom allows for complete sediment removal
- Recessed drain valve is out of the way of brooms and scrubbers

**Warranty**
- Lifetime tank
- 6-year parts limited warranty

*Storage tanks furnished with elements are standard 240 volt AC.
*Maximum test pressure: 300 PSI
*Maximum working pressure: 150 PSI
*Maximum water temperature: 180°
